Dear All,

You've all been given full administrative rights to the following NCEA Projects:

- 78\_Mn\_Udate\_Ila
- Ammonia
- Chloroform
- Uranium
- Mercury Assessment Team
- Glyphosate

A few of you (Vince, Ted, and Paul) will have emails in your inbox from Evidence Partners with your initial login info.

Please let me and/or Kris know if you have any issues.

Best, Kristan

Thanks again, I just asked for shared access to all of our projects to maximize flexibility.

If you want to "share" the mercury project for the time being (also an email to Henry), that is a probably a better approach – given everything happening, I don't want to have Henry asking Marc about licenses. I'll just assign Ila, Roman, Ingrid to that project then, and you can track that progress.

I'll create the other 3 – user level, right? All NCEA projects?

Cheers, Kristan

Thanks!!!!

We are using our 10 on a mercury project now (so, Ingrid, Roman, and Ila can't be enabled to my account)...

So, can we "borrow" Ingrid, Roman, and Ila's enabled status? (that would be an email to Henry I assume)

In addition, can we add the following 3 – and then work with Henry to make sure they can be enabled under IRIS account:

Paul White [White.Paul@epa.gov](mailto:White.Paul@epa.gov)  
Ted Berner [Berner.Ted@epa.gov](mailto:Berner.Ted@epa.gov)  
Vince Cogliano [cogliano.vincent@epa.gov](mailto:cogliano.vincent@epa.gov)

Kris,

Just send me up to 3

- Names/emails of your folks
- What role you want them to have (admin/user)
- All the NCEA projects or just some of them?

I'm sending you (mostly Dahnish) the documents we sent to the CO. Once we actually get the base implemented, he'll need to 1) get FITARA approval for the optional quantities (we only have it for the base amounts); 2) exercise the option.

As a note aside, Ingrid, Roman, and Ila haven't logged in awhile, so if you need to shuffle these around, just let me know.

Cheers, kristan

**Subject:** Distiller slots

Kristan,

We are interested in getting a few extra slots for Distiller – interest here on using was much higher than I expected. For some projects, we just need the extra slots for a few weeks or couple of months. Unfortunately, desired start date is ASAP.

I think at one time you mentioned potential ability to “borrow” some on short-term basis? Is that still an option?
